Subject: Status Report on MET Listing Investigation - File E212246
Medical Therapy System - Models 480

Dear Mr. Allen,

MET congratulates Anodyne Therapy on successfully completing the MET/NRTL Listing and MET-C Certification process of your Medical IR Therapy System, Model 480, under File E212246. Anodyne Therapy may begin to apply the MET/NRTL Mark on the previously stated product.

The MET Certification Reports covering our investigation of the above noted models will be forwarded to your attention shortly. Please take a moment to review the report. If you have any questions concerning the conditions of maintaining this Listing, please contact the undersigned.

We thank you for your business and look forward to performing future product safety Certification investigations for Anodyne Therapy. If you should have any questions or comments, please do not hesitate to contact us.

Sincerely,

Roger Smith
